Portfolio: <http://www.alexishunter.work/>

Multidisciplinary artist currently pursuing a BFA in Studio Art at Texas State University. In my work, I find it important to highlight the underrepresented perspectives of individuals more rarely seen in the contemporary art world. Through each narrative I build, I'm learning more about myself and the other people and communities that make up this world. I'm currently working on a series of paintings that explore the identity confusion and the unfortunate Othering aspect that often accompanies being biracial.
